MetaTrader 4

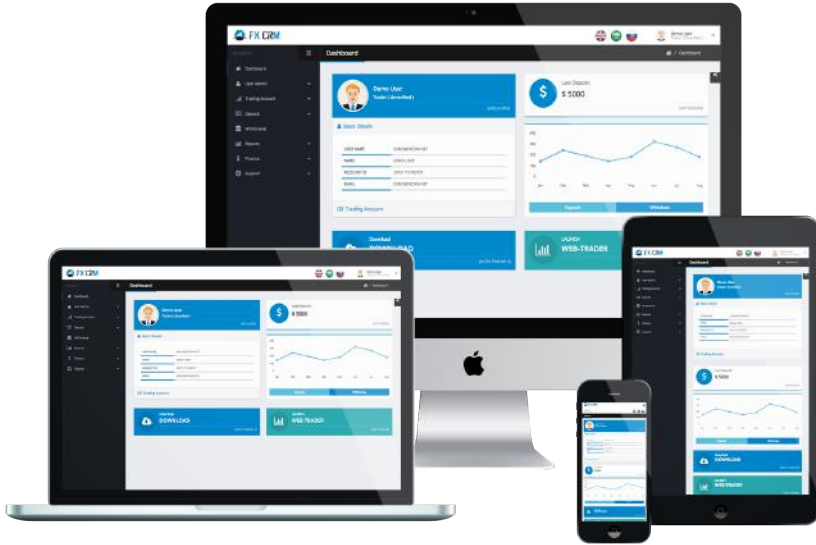

FOREX LICENSE

Every financial company need special type of license specially if you are holding clients fund then you must need it. If you planning to start a forex company then you offcourse need this. Without license making business is taff also getting Emoney Merchant accounts and Bank Accounts are almost impossible.

Our legal compliance team works with Governments of various jurisdictions and avail tailored solution for our clients to setup the entity legally and have a esteemed global presence. We provide transparent consulting service for our clients to acquire Forex, Securities or bank license in any jurisdiction at extremely low processing charge. You can simply work directly with Authorities through us.

We Can arrange Forex License & regulation service from (IFSC) Belize, (CySec) Cyprus, (FCA) UK, (FSA) Saint Vincent and The Grenadines if you are in abudget and dont want to spend a lots of money for forex regulation then you can go for (FSA) Saint Vincent and Th Grenadines. We can give you full solution for that and this License is not as strong as like European one but good to start .

FXCRM

To maintain/manage your client/forex broker and business a CRM and a lots of business management software is compulsory here is the solution comes from IT Corner Limited Our CRM system comes with all features that you need to manage your Clients, IBs, Stuffs, Business Activities, Marketing Activities and some more thing from one software Bellow here is the features.
